Dj Moderno (Dj Set)

A Legacy of Indie and Electronic Innovation

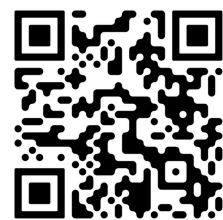

Madrid

With over 20 years of experience, Dj Moderno has become a staple in the indie and electronic music scene, remixing both national and international indie bands, producing music for film and advertising, and performing with various bands. His presence has helped shape the indie/electronic nightlife across numerous venues and festivals in the country.

Currently, Dj Moderno is a resident at several renowned clubs in the capital, including Independance Club, Contraclub, Barco, 33, Siroco, and Honky Tonk, among others. He frequently plays in different spanish cities such as Pamplona, Castellón, Valencia, and Sevilla. His festival appearances include prominent events such as FIB, Sonorama, Gigante, Estaciones Sonoras, La Térmica in Málaga, to name just a few. When asked about the top indie clubs in the country, it's safe to say that Dj Moderno has likely graced the stage of many of them. His current DJ set, featuring live performances and AKAI-driven mash-ups, offers an eclectic mix of impossible remixes, fusing indie pop, rock, alternative, and electronic hits. In 2024 alone, Dj Moderno delivered over 250 sets,, leaving a mark on clubs with his unique and bold blend of sounds. His schedule typically includes three to four weekly sessions at the best indie clubs, all while continuing to produce new music. In his sets, listeners can expect to hear exclusive remixes and mash-ups crafted by Dj Moderno over time—sounds you won't find anywhere else. Drawing from a wide array of influences, from 80s and 90s electronic music to contemporary hits, his versatility is evident. He has also performed multiple times at Madrid Fashion Week and other fashion events, further showcasing his broad artistic reach. Dj Moderno's ability to read the crowd and his extensive musical background ensure that his performances are always spot-on, which is why he's invited back to play again and again at the venues he frequents. In 2020, he began producing and releasing music under his own name, and in 2022, he introduced his debut album, La Nave Nodriza, which was met with great enthusiasm. Since then, he has released six new singles and is preparing a new full-length album set for release in March 2025.
